Every Child Counts

Make sure all children in your household are counted in the 2020 Census.

What is the census?

The census is a national survey that happens once every 10 years. It helps determine how federal funding is given to programs. It also helps communities understand how they should spend funds, like building more schools and hospitals, fixing roads, and paying for important programs.

The 2020 Census asks 10 simple questions that are safe for everyone to answer. Responses are confidential and protected by law. It can be completed online or over the phone in 13 different languages. It can also be completed by mail in English or Spanish.

Census Day: April 1, 2020

The 2020 Census is easy. The questions are simple. Your responses are safe.

Visit **[2020Census.gov](https://www.census.gov)** for more information.

What do you need to do?

1. Fill out your census form this spring. You can fill it out online or by phone starting March 12th, or fill out a paper form that will be mailed to you in April.
2. Count everyone living in your household on your census form. This includes babies, children, and anyone who is living and sleeping there most of the time, even if they are not related to you.
3. Encourage your friends, family, and neighbors to do the same.

*“There Is No Worse
Struggle Than the
One Never Waged”*

Our families depend on an accurate census count.

Everyone who lives in the US needs to fill out their census. It is safe and only takes about 10 minutes to complete. In those 10 minutes, you'll help ensure that your community has the resources it needs for the next 10 years.

Be counted and make sure your community's voice is heard in the 2020 Census.

Important, convenient, and confidential.
