

2024 Accomplishments

We are so proud of all the hard work and expansion in 2024. We could not have done it without your partnership, creativity, and commitment to serving families. Thank you.

Advocacy

Advocating for Our Children, Together

AP-OD advocates for what matters most: the long-term well-being of families nationwide. Here are 2024's advocacy highlights:

Latino Infant Initiative

We continued to partner with [UnidosUS](#) to improve the quality of life for Latino infants (prenatal to age 3) and their families and launched the [Latino Infant Initiative website](#).

Baby Bonds

We partnered on a [Baby Bond pilot](#) in New Mexico alongside the Partnership for Community Action (PCA), MoneyByrd, and Prosperity Works. We awarded 15 low-income children with a \$6,000 interest-bearing trust and supported an advocacy campaign led by PCA to develop a NM statewide publicly funded Baby Bonds program.

Dual Language Learner Master Plan Advocates

We participated in a collaborative workgroup to identify, coordinate and collaborate to make recommendations for Dual Language Learners in California's Master Plan for Early Learning and Care.

Whole Child Community Equity Group

We joined the Whole Child Community Equity Group, an initiative to support the ending of racial and economic inequities in child care in California by ensuring a whole-child approach.

Texas Roundtable (September 2024)

In collaboration with AVANCE and UnidosUS, we engaged elected officials, community leaders, and key stakeholders in a discussion on the Latino Infant Initiative (LII) Policy Agenda, focusing on its potential to empower Latino families through education.

National Highlights

- National Latino Family Report**
 We released the **2024 report** based on our national survey of 1,500 Latino families with children under 6 years old, providing a comprehensive study of the economic and social issues impacting families.
- Contributed to the Brookings Institution initiative on Supporting a Community-led Data Infrastructure to Build Local and Equitable Governance that Advances Policy**, and highlighted as a case study within the research report.
- Rapid Survey**
 We continued our partnership in the RAPID-EC Survey Project based at the Stanford Center on Early Childhood to gather experiences on family well-being from over 3,500 parents of children under age 6, and more than 8,000 childcare providers.
- AP-OD became one of the first official members of the **National Collaborative for Infants & Toddlers (NCIT)** when they launched their membership drive.
- We worked closely with national partners and allies to **advocate for full funding of WIC** for fiscal year 2024

Direct-to-families

Creating Lifelong Connections.

AP-OD develops engaging and accessible learning content, tools, and curricula for diverse families with young children. In 2024, we prepared for the release of our forthcoming 4th Edition Curriculum. We launched our pilot app and hosted 6 family-focused webinars on emotional intelligence, multilingual literacy development, the National Latino Family Report, understanding the state budget in CA and TX, and MyFree Taxes.
